

Dr Olivier GALATOIRE was appointed as the Chief of Oculoplastic Department in Rothschild Foundation in 2009 and he is specialised in Orbital and Eyelid Surgery.

He trained at the school of Medicine in Bordeaux and had his residency and fellowship in the medical school of Paris.

He had his fellowship with Doctor Serge MORAX in Paris.

Dr GALATOIRE is known for his excellence at every level of delivery of medical care. He is a teacher of residents and fellows with stringent expectations and a devotion to training.

He is the General Secretary of the French Society of Oculoplastic Surgery

The clinical case-mix at Rothschild provides in terms of patients the National Reference in Oculoplastic making an opportunity for research and publication of papers and articles in orbit and eyelid disease.
